

Prabhatha Nissi Guntur

📍 New York, NY • 📞 (551) 556-6190 • ✉️ pnissiguntur@gmail.com • 🌐 nissi-guntur • 🌐 Nissi-Prabhatha • 📁 Portfolio

TECHNICAL SKILLS

Languages: Python (primary), R, SQL, Scala, Bash, JavaScript

ML & Statistics: Scikit-learn, XGBoost, TensorFlow, PyTorch, regression, classification, clustering, hypothesis testing, A/B testing, ARIMA

Data Science: Statistical modelling, feature engineering, EDA, NLP (spaCy, NLTK), LangChain, RAG, LLM integration, OpenCV

Data & Cloud: Snowflake, Airflow, Spark, PostgreSQL, MySQL, MongoDB, AWS (EC2, S3, Lambda), GCP, Docker, Git

Visualization & BI: Tableau, Power BI, Streamlit, Plotly, matplotlib, seaborn, ThoughtSpot, data storytelling

EXPERIENCE

JerseySTEM

Remote, NJ

Data Scientist & Engineer | Python, R, SQL, Scikit-learn, Airflow

Feb. 2025 – Present

- Conducted end-to-end analysis using **Python**, **SQL**, and **R** to solve ambiguous business problems; translated open-ended questions into structured **analytical frameworks**, providing **data-driven conclusions** for 5+ teams.
- Translated open-ended business problems into structured **analytical frameworks**; defined and rationalized **metrics** to measure business outcomes and communicated **quantitative insights** to influence senior leadership stakeholders.
- Developed and prototyped scalable analyses and business cases; collaborated with stakeholders to refine ambiguous business questions into tractable analyses, defining **data requirements**, methodologies, and **evaluation metrics**.
- Defined and reported on **KPIs** for business reviews; acted as subject matter expert to anticipate analytical challenges and ensure high-quality, validated data across all reporting workflows.

New Jersey Institute of Technology

Newark, NJ

Graduate Teaching Assistant | Python, R, Statistical Methods

Jun. 2024 – Dec. 2024

- Mentored 100+ students on **statistical methods**, **machine learning** algorithms, and **Python/R** programming; communicated complex analytical concepts clearly to diverse, non-technical audiences.

Apple Inc. via Tata Consultancy Services

Hyderabad, India

Data Scientist | Python, SQL, R, Snowflake, Statistical Analysis, KPIs

Jan. 2021 – Dec. 2022

- Conducted **product analysis** including **root cause analysis** and quantitative assessment of critical user journeys on Apple Music datasets; delivered **data-driven conclusions** influencing product strategy for 5+ client teams.
- Built **ML-driven** data validation frameworks using **Python** and **SQL**; applied **anomaly detection** and **root cause analysis** to identify structural issues across millions of raw records, achieving zero data loss.
- Developed **Spark**-based large-scale data processing pipelines and **Snowflake** analytical models, transforming unstructured raw datasets into structured, high-quality assets for client decision-making.
- Defined and reported on **KPIs** for business reviews; translated complex analysis results into clear **business insights** and product opportunities for executive partners; awarded **Performance Excellence Award**.

Technospark IT Solutions

Vijayawada, India

Data Analyst - Statistical Methods & Backend | Python, SQL, R

May 2019 – Dec. 2019

- Performed **EDA** and **statistical analysis** on third-party datasets; applied **Python** and **SQL** to derive structure from raw data, resolving **30+** data quality issues and cutting resolution time **40%**.
- Built data ingestion pipelines with **schema enforcement** and **anomaly detection**, ensuring data integrity and fitness for downstream **statistical modelling** and analytical purposes.

PROJECTS

Product Analytics & KPI Measurement Platform | Python, R, SQL, Scikit-learn, Snowflake, Streamlit

2025

- Designed end-to-end **product analysis** platform using **Python**, **R**, and **SQL**; defined **KPIs** and **evaluation metrics**, applied **statistical modelling** and **root cause analysis** achieving **94%** accuracy on **10K+** records.
- Influenced long-term product strategies by providing **analytical insights** and actionable recommendations; reduced triage time **60%** and delivered **Streamlit** dashboards for cross-functional leadership.

Statistical Analytics & Data Science Toolbox | Python, R, SQL, Scikit-learn, Airflow, Tableau, pytest

2022–2025

- Built reusable **Python** and **R** analytical modules for **statistical modelling**, **EDA**, **hypothesis testing**, and **feature engineering**; processed **10M+** records monthly with **Airflow** orchestration on **AWS**.
- Delivered **Tableau** dashboards translating complex model outputs into client-facing insights; integrated **pytest** test suites reducing analytical errors by **60%** across all data science workflows.

EDUCATION

New Jersey Institute of Technology

Newark, NJ

M.S. Computer Science - GPA: 3.70/4.00

Jan. 2023 – Jan. 2025

Lovely Professional University

Punjab, India

B.Tech Computer Science - GPA: 3.65/4.00

Jul. 2017 – Jun. 2021

ACHIEVEMENTS

Performance Excellence Award - Apple Inc. via TCS (2022): Recognized for data science and analytics delivery at Apple Music — zero data loss across millions of records, ~30% improvement in data freshness, serving 5+ teams.

Published Research - IJARESM (2021): Co-authored peer-reviewed paper on real-time gesture recognition using deep learning and computer vision.
